

## The Mississippi Gulf Coast is open for you !

*by Staff*

The Oil spill in the Gulf of Mexico is going on record as the largest man made disaster for the United States in decades. Katrina was the largest natural disaster for the United States. With all that said, here we are ! In all our white sandy beaches, sunny bathed southern hospitality glory. And we are waiting for you. The Casinos, Hotels and Charter Boats are reporting large calls asking if they are still open and activities are still available. As of today we are not affected by the horrific spill in the area of tourism. You can still go Charter Fishing with some of the Best Captains to ever run a trip. Now is your chance to soak up some fun, visit the islands, and fling into spring on the Gulf of Mexico along the Mississippi Coast. Make sure you call ahead for your particular event to check on any day to day changes. But overall we are here and can't wait to see yall !
