Frances Kaminski

Our logo and some of graphics were done by Mrs. Frances Kaminski, of Gulfport, MS.

All I asked her for was a simple sketch of the beautiful light house on interstate 90. She graciously provided several beautiful sketches. We had them scanned into graphic files and we have provided links to all of them below.

Mrs. Kaminski, after being told that her pages have been so popular, is sketching, and painting more artwork for your viewing pleasure.

We appreciate all that this talented lady has done for us!.

Here is some of Frances' work.

The thumbnails of the images really don't do justice to her work. Click on the links to download the full size images.
